

Alarm Dispatch Integration

SOLVE THE #1 GAP IN YOUR EMERGENCY PREPAREDNESS PLAN

Emergency response time has never been more important. However, today's security infrastructure is still lacking a key communication component.

GAP

Non-integrated Alarm Systems Add Precious Seconds & Even Minutes to an Emergency Response

GAP

The Overwhelming Majority of Self-Monitored Alarms in the United States are NOT Integrated with Dispatch

GAP

Dispatchers are Manually Keying & Possibly Miscommunicating Crisis Calls for Service

SOLUTION

ASINC Integrates Self-Monitored Alarms with Emergency Dispatch... Speeding Emergency Response

Save Precious Minutes...When it Matters Most

ASINC Alarm Dispatch Integration

INTEGRATES

alarm systems, access control, emergency call boxes and more

WORKS

with your existing technology

SIMPLIFIES

Communication Center workflows

PROVIDES

real-time information to extended Public Safety agencies, stations and facilities

SPEEDS

and logs addresses between CAD and Alarm systems

LOGS

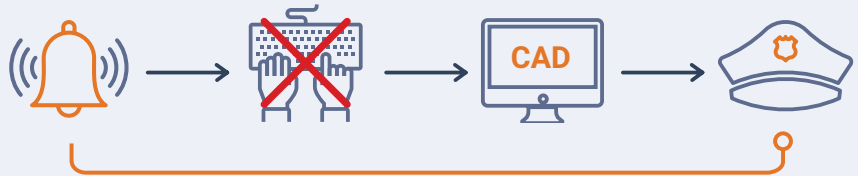

events serving as system of record

COMPLIANT

with APCO/ASAP Standards

ASINC® | Integrates Self-Monitored Alarms with Dispatch to Speed Emergency Response

ASINC Dispatch Alarm Integration

Universal Dispatch Integration Solution

ASINC is a leading emergency communications technology that bridges the gap between alarm notifications and public safety answering points. During a crisis, ASINC saves precious time by eliminating the need to hand-key and, possibly, mis-key critical information.

ASINC is ideal for large public spaces where response time is of the essence...

- College and workplace campuses
- Hospitals
- Airports
- Shopping Malls
- Entertainment Complexes

Bridge the Gap in Your Emergency Preparedness Plan Today
