to Identify Mandatory  
vs. Optional Fields

**SINGLE QUERY ACCESS**  
to Multiple Databases

**SAVE & RETRIEVE**  
Incomplete Forms

**INTEGRATED  
STATE CODES**  
with Drop-Down Menus  
& Embedded State Manual

**PRE-FILL FORMS**  
with RMS Integration

**AUDIT LOGS**  
by User & Device

**MOBILE ACCESS**  
for Queries on  
Various Devices

### Your job demands dependable CJIS access every minute of the day.

With CLIPS' smart terminal, browser-based approach, you can quickly query and format mission-critical information for immediate action. With single workstation convenience, an intuitive user design and shortcut queries to the state and national CJIS, Nlets and NCIC systems, CLIPS accommodates the information needs of all users from record section personnel to dispatcher to law enforcement.

### Cost Effective, Browser-Based Reliability

CLIPS offers the reliability you demand with the affordability to match any budget. Using the industry's most value-added technology, CLIPS delivers browser-based CJIS access that maximizes system uptime, dispatcher response and records integration...with every inquiry, locate, entry, edit and system response.

### Scalable Growth with Mobile & Fixed Access

From single-station to enterprise-wide fixed and mobile access solutions, CLIPS can grow with you while seamlessly integrating within your current technical architecture. CJIS-compliant/certified within 50 states, CLIPS accommodates from 1 to 4000 terminals or users.

### Configurable Permissions by User and Device

With 3 levels of tiered permissions and security, CLIPS offers the industry's most granular configurations for both device and user:

- System Admin – Super user across all agencies for configuration
- Agency Admin – Responsible for managing agency users and CJIS audit
- Individual User – Configurable forms based on function

### Unmatched 24/7 Support

Time is of the essence in everything you do. That's why CLIPS support is available 24/7. Available day and night, CommSys support personnel trained in diagnosing and resolving issues on-the-spot. We're with you every step of the way.

# CLIPS SAVES TIME

## With Every Keystroke

Search & Filter Forms Multiple Ways

Select Agency ORI

Access Multiple Databases with a Single Query

**Key Information**  
Unit (UID) [DENC] Originating Agency Identifier (ORI) [CADEVICE1]

**Inquiry Options**  
1. Name (NAM) [Driver] Birth Date (DOB) Age (AGE) Sex (SEX) State (STT)  
2. Operator # (OLN) Operator State (OLS)  
3. Plate # (LIC) Plate State (LIS) Expiration Plate Year (LY) Plate Type (LIT)  
4. VIN (VIN) Make (VMA) Year (VYR) State (VSA)

**Possible systems queried are as follows:**  
DMV, WPS, DVROS, MPS, SVS, SRF, AFS, APS, NCIC, and NLETS

**Required fields are as follows:** NAM or OLN or LIC or VIN

NAM -- this field should contain the person's last name, first name and middle initial. Entering more than a middle initial will result in an error from the DMV system. Names should be entered as follows: last,first MI  
Ex: Smith,John R

The more inquiry information entered, the more systems will be searched and depending on what fields are entered, different systems are queried.

Rapidly Scan Formatted Responses for Swift Action

Easily Print, Email or Delete Individual Response Sections

Forward Response to Other Agencies & Terminals

Quickly Identify "Hits" with Color Coding & Audible Alerts...Even After Reading

CLIPS is a huge time saver. With CLIPS' drop-down code tables, we have reduced the need to reference the books...something we were doing 40% - 50% of the time before.

CLIPS offers user friendly, feature-packed and reliable CJIS interface software coupled with fantastic customer service. I highly recommend it to any busy com center.

-Carla Rittue, Records Supervisor  
Santa Cruz County Sheriff-Coroner, CA

-Billie Huffman, Senior Dispatcher (Retired)  
Bettendorf Police Department, IA
